

Helping you ensure quality animal care

FORTUDE

Fortude provides veterinary professionals with the right tools to make split-second decisions that save lives and boost animal healthcare at your institution. We work with some of the biggest names in US healthcare to improve patient care and reduce mortality rates. Imagine what we can do for your institution.

Intelligent Analytics Tools

Multiple Operational Aspects

Customizable to Any Practice

Proven Change Across All Operations

Enhanced Transparency

Fortude Mortality Review System

Learn from every mortality with the Fortude Mortality Review System (MRS)

Benefits

- Consolidate all case information in one central system
- Identify effective practices and expand implementation
- Identify adverse issues and take preventive measures
- Track practice trajectory / evaluate effectiveness

Fortude Incident Reporting System

Capture and prevent adverse events with the Fortude Incident Reporting System (IRS)

Benefits

- Discover the root causes of animal patient incidents
- Prescribe solutions to prevent future occurrences
- Consolidate individual, investigation, and committee reviews
- Enact timely responses to incidents

Experience the Fortude difference

Reduce mortalities and errors. Increase confidence for enhanced animal healthcare

Contact us today for an obligation-free custom demo to see for yourself what change can look like. We understand the challenges of the veterinary industry. Fortude will work with you to help transform your mortality & incident realities to start saving more lives and improving the quality of your animal care.
